PROFESSIONAL SUMMARY

Enthusiastic 4th-year B.Tech Computer Science and Engineering student with hands-on experience in Full Stack Web Development. Strong understanding of front-end and back-end technologies, database management, and web application development. Adept at building responsive, user-friendly applications and solving real-world problems using modern web technologies. Passionate about leveraging emerging technologies to solve real-world problems and create meaningful user experiences.

EDUCATION

B.Tech - Computer Science Engineering, *Heritage Institute Of Technology* 2023 – 2027
CGPA: 7.92 (till 5th semester)

Higher Secondary, *Dabcha Nabakola High School (H.S)* 2022
• 81.4%
• Board: WBCHSE

Madhyamik, *Dabcha Nabakola High School (H.S)* 2020
• 88.71%
• Board: WBSSE

SKILLS

Programming Languages

- C
- C++
- Python
- java
- JavaScript

Databases

- MySQL
- MongoDB

Frontend

React.js
Tailwind CSS

Cloud Computing

AWS

Backend

Node.js
Express.js
FastAPI

Tools & Platform

- Git
- GitHub Action
- Postman
- Firebase
- Docker
- Render

Core concept

- Data Structures & Algorithms
- OOPs
- DBMS
- Operating Systems

PROJECTS

AI Powered React UI Library

- Developed a scalable AI-powered React UI component library inspired by shadcn/ui with reusable and customizable frontend components.
- Built and published reusable React components as an NPM package for easy integration into modern web applications.
- Integrated APIs to automatically generate UI components and design suggestions from user prompts.
- Designed a SaaS-based platform with authentication, subscription management, and premium component access using Razorpay payment gateway integration.
- Implemented Razorpay payment gateway integration for subscription billing, payment processing, and automated access management.

AI Interview Agent

- Developed an AI-powered interview simulation platform using React.js, Node.js, and OpenAI APIs to conduct technical and HR interview sessions.
- Implemented real-time AI-driven question generation based on candidate responses and selected interview domains.
- Built intelligent answer evaluation and feedback mechanisms to assess communication skills and technical proficiency.
- Added voice and text-based interaction capabilities for a realistic interview experience.
- Designed a responsive and user-friendly interface to support seamless interview practice across devices.

AI Voice Assistant for Websites

- Developed a customizable AI-powered voice assistant that can be embedded into websites to provide intelligent customer support and website navigation.
- Implemented real-time voice conversations using Speech-to-Text (STT) and Text-to-Speech (TTS) technologies for natural user interactions.
- Integrated Gemini API to generate contextual responses and retrieve business-specific knowledge.
- Built a scalable backend architecture using Node.js, Express.js, and MongoDB for conversation management and data storage.
- Developed a responsive frontend using React.js and Tailwind CSS, ensuring seamless user experiences across devices.

Real Time Chat Application

- Developed a full-stack real-time chat application using React.js, Node.js, Express.js, MongoDB, and Socket.IO
- Implemented instant messaging functionality using WebSocket-based communication for low-latency real-time updates.
- Built secure user authentication and authorization workflows to protect user accounts and conversations.
- Developed features including online/offline presence indicators, typing status, message timestamps, and persistent chat history.
- Designed a responsive and mobile-friendly user interface to ensure a consistent experience across platforms.
- Optimized backend data handling and message synchronization for reliable real-time communication.

ACHIEVEMENTS

Successfully completed Full Stack Web Development training.

Participated in a college-level hackathon, build a functional project under time constraint.

EXTRA-CURRICULAR ACTIVITIES

- Actively participated in college technical and cultural events, contributing to teamwork and coordination activities.

- Volunteered in college events and academic activities, assisting in planning and execution.

CERTIFICATES

Cloud computing with AWS 
Completed AWS Cloud
Computing Training with
practical in AWS services
including EC2, S3, IAM, and VPC.

Generative AI 
Generative AI Certified – Skilled
in AI tools, prompt engineering,
and LLM applications.
