PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with expertise in Full Stack Development, Software Engineering, and AI Applications. Skilled in React.js, Node.js, Express.js, MongoDB, MySQL, JavaScript, Python, and AWS. Strong knowledge of Data Structures & Algorithms, OOP, DBMS, and Operating Systems, with experience developing scalable web applications, REST APIs, and cloud-based solutions.

PROFESSIONAL EXPERIENCE

Euphoria GenX, Software Engineer Intern

06/2025 | India

- Developed and optimized 5+ full-stack features using React.js, Node.js, and REST APIs, improving application performance and scalability by 25%.
- Collaborated with cross-functional teams to design, develop, test, and deploy scalable web applications, enhancing functionality and user experience.
- Contributed to backend development, database management, code reviews, debugging, and Agile-based software delivery while implementing best practices for maintainability and performance.

PROJECTS

AI Powered React UI Library

- Architected and expanded a scalable AI-powered React component library and NPM package using React.js, TypeScript, and Tailwind CSS, delivering reusable, customizable, and production-ready UI components.
- Integrated AI APIs to generate dynamic UI components and design recommendations from natural language prompts, enhancing development efficiency and user experience.
- Built a SaaS platform with secure authentication, role-based access control (RBAC), MongoDB, and Razorpay payment integration, enabling subscription management, automated billing, and scalable application deployment.

AI Voice Assistant for Websites

- Built and deployed an AI-powered voice assistant platform using React.js, Node.js, Express.js, and MongoDB, enabling automated customer support and enhanced user engagement.
- Integrated Speech-to-Text (STT), Text-to-Speech (TTS), and Gemini API to deliver intelligent, context-aware conversations with personalized responses and knowledge retrieval.
- Developed a scalable full-stack architecture with responsive UI and optimized backend services, improving system performance, reliability, and seamless cross-device accessibility.

SKILLS

Programming Languages

C, C++, Python, Java, JavaScript

Cloud & DevOps

Git, GitHub, Docker, CI CD, Amazon Web Services (AWS), Linux

Frontend

React.js, Tailwind CSS, HTML5, CSS3, Responsive Web Design

Core Computer Science

Problem Solving, Object-Oriented Design, Software Development Life Cycle (SDLC), System Design (Basic), Design Patterns, Debugging, Unit Testing, Data Structures

Backend

Node.js, Express.js, FastAPI, REST APIs, Authentication & Authorization

AI & Generative AI

Langchain, LangGraph, Prompt Engineering, OpenAI API, Gemini API, AI Agents, Large Language Models (LLMs), Vector Databases

Databases

MySQL, MongoDB, SQL, Database Design, Database Optimization

SOFT SKILLS

Problem Solving, Analytical Thinking, Team Collaboration, Effective Communication, Adaptability, Continuous Learning

EDUCATION

B.Tech - Computer Science Engineering, Heritage Institute Of Technology

CGPA:7.92(till 5th semester)

2023 – 2027

Higher Secondary, Dabcha Nabakola High School(H.S)

81.4%, Board: WBCHSE

2022

Madhyamik, Dabcha Nabakola High School(H.S)

88.71%, Board: WBSSE

2020

CERTIFICATES

Cloud computing with AWS

Completed AWS Cloud Computing Training with hands-on experience in AWS services including EC2, S3, IAM, and VPC.

Generative AI

Generative AI Certified – Skilled in AI tools, prompt engineering, and LLM applications.

ACHIEVEMENTS

- Published a reusable React component library as an NPM package.
- Engaged in technical hackathons and collaborative software development initiatives to build innovative digital products.
- Enhanced 4+ AI-powered and full-stack applications leveraging Generative AI and cloud technologies.
- Coordinated and managed college technical and cultural events, fostering cross-functional teamwork and smooth operational execution.
- Volunteered in college events and academic activities, assisting in planning and execution.
