Professional Summary

Computer Science Engineering undergraduate with software engineering internship experience and hands-on experience developing full-stack web applications and AI-powered applications. Skilled in C++, Python, JavaScript, React.js, Node.js, Express.js, REST APIs, SQL, MongoDB, Machine Learning, NLP, Deep Learning, LLMs, Generative AI, Prompt Engineering, and Retrieval-Augmented Generation (RAG). Experienced in software development, API integration, database management, authentication, testing, debugging, and Agile development.

Professional Experience

Tata Steel Ltd. **05/2026 – 06/2026**
Web Development Intern

- Developed and tested web applications supporting internal business workflows using SQL databases and debugging tools.
- Participated in software development lifecycle activities including requirements analysis, feature implementation, functional testing, debugging, and issue resolution.

Techno Exponent (T-Web Exponent Services Pvt. Ltd.) **06/2026 – 07/2026**
Software Engineer Intern

- Developed and optimized **5+ full-stack features** using React.js, Node.js, Express.js, and REST APIs, improving application functionality and performance.
- Contributed to backend development, database management, API integration, debugging, testing, and deployment within Agile workflows.

Projects

AI Interview Agent *React.js, Node.js, LLMs, Prompt Engineering, STT, TTS*

- Built a full-stack AI mock interview platform using React.js and Node.js to generate personalized technical and behavioral interview questions.
- Developed an LLM-based scoring engine using prompt engineering to evaluate interview responses for correctness, communication, confidence, and provide structured performance feedback.
- Implemented Speech-to-Text (STT), Text-to-Speech (TTS), JWT authentication, and Razorpay payment integration for an interactive interview experience.

AI-Powered React UI Library *React.js, Node.js, OpenRouter, JWT, Razorpay, NPM*

- Built and published a reusable React component library as an NPM package with customizable, prop-driven, production-ready UI components.
- Integrated OpenRouter LLM APIs to generate React components from natural-language prompts with live in-browser preview using react-live.
- Implemented Google OAuth, JWT authentication, Role-Based Access Control (RBAC), automated NPM publishing, and Razorpay credit-based payments with HMAC-SHA256 server-side verification.

AI Website Builder – GenWeb.ai *React.js, Vite, Node.js, Express.js, MongoDB, OpenRouter, DeepSeek*

- Built an AI-powered website builder that converts natural-language prompts into complete HTML, CSS, and JavaScript websites with an interactive live editor and preview.
- Integrated OpenRouter and DeepSeek LLMs to generate and modify website code through conversational prompts, enabling real-time website development and iteration.
- Implemented Google Sign-In with Firebase Authentication, JWT-based authentication, REST APIs, credit-based usage, and Razorpay payment integration.

Technical Skills

Languages: C++, Python, JavaScript
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Vite
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL, SQL, Redis
AI/ML: Machine Learning, Scikit-learn, NumPy, Pandas, NLP, Deep Learning, LLMs, Generative AI, RAG, Prompt Engineering
Cloud & Tools: AWS, Linux, Docker, Git, GitHub, Postman, NPM, Razorpay

CI/CD & DevOps: Jenkins, CI/CD
Core CS: Data Structures and Algorithms, OOP (Object-Oriented Programming), DBMS, Operating Systems, Computer Networks, SDLC, Agile

Soft Skills

Problem Solving, Analytical Thinking, Team Collaboration, Effective Communication, Adaptability, Continuous Learning

Education

Heritage Institute of Technology **2023 – 2027**
B.Tech – Computer Science and Engineering *CGPA: 7.88/10 through 6th Semester*
Dabcha Nabakola High School (H.S.) **2022**
Higher Secondary – WBCHSE *81.4%*
Dabcha Nabakola High School (H.S.) **2020**
Madhyamik – WBBSE *88.71%*

Certifications

- **Artificial Intelligence and Machine Learning** – Internshala
- **Generative AI** – Internshala

Achievements

- Solved **200+ LeetCode problems**, demonstrating strong problem-solving and Data Structures & Algorithms proficiency.
- Published a reusable **React component library as an NPM package**, demonstrating practical software development experience.
- Participated in **technical hackathons** focused on developing innovative software solutions and applying technical skills to real-world problems.
